

How to ship us your movies, slides, and negatives.

1. Label the tape(s). Affix a return address label to each tape. If mailing in multiple tapes, use the label area to number the tapes with a marker, starting with "1".

2. Find a box (or padded envelope for a single tape). If you are shipping a single tape, **USPS 1st class mail** is the way to go. Use either **USPS Flat Rate box** or **USPS Media Mail** for 5 tapes or more. Media Mail will be more cost effective, but it is slower and you have to provide the box.

Priority Mail is pricier, but it is faster and USPS provides the box for free! Make sure you get a **Flat Rate Box** (like the ones on the left), shipping Priority in a standard box can get expensive. Check [USPS.com](https://www.usps.com) for pricing info.

No post office nearby? No problem. We can provide a shipping label for a nominal fee. Just [email us](mailto:support@lotusmedia.us) with your address and approximate shipping weight, and we'll email you a USPS label you can print at home.

- a. Package it up. Complete the order form on the next page and include it with the tapes. If you like, email us at support@lotusmedia.us to give us the heads-up that the package is on the way and include any additional instructions.

3. Ship It. Mail the box/envelope to:
